### Listening Instruction Cards

Take part in the conversation but do not look the speaker in the eyes	Take part in the conversation and smile and be interested	Listen quietly to the speaker and say nothing	Take part in the conversation and lean far back
Take part in the conversation but stare at the speaker	Take part in the conversation and ask related questions	Deliberately think of something else while you are listening	Take part in the conversation and lean slightly forward towards the speaker
Take part in the conversation but fidget with your clothes	Take part in the conversation and nod your head to encourage the speaker	Take part in the conversation but keep looking at your watch	Take part in the conversation and mirror the speaker's body language
Take part in the conversation but stand stiffly to attention	Take part in the conversation but turn side-ways to the speaker	Take part in the conversation but yawn a lot	Take part in the conversation maintaining good eye contact
Take part in the conversation but keep scratching your head	Take part in the conversation but keep a blank expression on your face	Take part in the conversation but act more interested in something else	Take part in the conversation and show you are interested and relaxed

# Recent Applications of Active Listening

- From 1992-1994, K. Alan Rutter of the University of Portsmouth Business School, UK conducted a study with a group of managers of a UK boat-building company that specialized in producing sailing yachts.
- The managers of the company were at a point of indecision and could not manage to agree on a solution.
- They had tried the help of other outside consultants before, but with no real success.

<b>РАЗДЕЛ 1. Аудирование</b>
<b>Упражнение 1. Аудирование</b>
<p>Вы услышите разговор двух подростков. В заданиях 1–6 обведите цифру <b>1</b>, <b>2</b> или <b>3</b>, соответствующую выбранному вами варианту ответа. Вы услышите запись дважды.</p>
<p>1. Lucy comes to see Jason when he is</p> <ol style="list-style-type: none"> <li>1) painting the wall.</li> <li>2) going to paint the wall.</li> <li>3) choosing the paint colour.</li> </ol>
<p>2. Jason knows how to paint walls from</p> <ol style="list-style-type: none"> <li>1) his parents.</li> <li>2) his own experience.</li> <li>3) <i>Do It Yourself</i> lessons.</li> </ol>
<p>3. Last week at the <i>Do It Yourself</i> lesson, Jason and his classmates</p> <ol style="list-style-type: none"> <li>1) built boxes for birds.</li> <li>2) painted doors.</li> <li>3) decorated walls.</li> </ol>
<p>4. At the present moment, Lucy's father is</p> <ol style="list-style-type: none"> <li>1) painting a garage door.</li> <li>2) building a house for rabbits.</li> <li>3) building a garage.</li> </ol>

If you poured out at everything in downloading torrent, you almost certainly come across the terms a € œSemiala €, a € œPeer, a € and a € œleechâ €. A seed (or seed) is someone who is sharing the file; The more seeds, the more potential places to download the file. Someone who is The sown file is a leech. The more leech a file has versus seeds will make the download file slower, as there is more people accessing the file. In addition, if no one is sowing, no one can download. The whole group of sowers and leeches are their colleagues-by, why the bittorrent is referred to as sharing files of a € œPeer-a-peer. You collect a file directly through someone else, instead of downloading a server. This peer cluster is also called "reproduction", who is sending and downloading the same file. How, exactly, does that work? Essentially, the archive is divided into pedašes, with each part being downloaded and compiled by the Download Program. After downloading sufficient data, you will start uploading the parts of the file you downloaded simultaneously, thus increasing the download speed for your other colleagues in the swarm. Downloading customers provides preferential treatment that you allocate more bandwidth to upload and are sown files. Basically, the more you share, the more you receive. Another term that you may have found is the "tracker". A tracker is a accompanying server of all peers in a swarm, but no part of the file hosts no part of the file . Instead, a tracker acts as a Trown Policeman, directing colleagues to the disposingable file locations. Your download client will connect to this server, as instructed in the .torrent file. There is something like download a € a € œferencés a "trackerless", which we will address another moment. Installing a BitTorrent customer and QbitTorent file download to open a .torrent file and start downloading, you need a download customer to deal with the file. In the past, this guide introduced torrent download customers, but the best current options are Qbittorrent, and Dillâ9. These three programs are some small differences, but usually very similar. They are all open, and support various operating systems including Windows, OSX, FreeBSD and multiple Linux Distros. Best of all, they are all devoid of annoying ads, useless "special offers" or malicious bloatware. Once you have established yourself in which torrent client you will be running, downloading and installing it. An obvious step,yes, but having a torrent program installed is impoant because it allows you to download torrents through magnet links. You can always download .torrent files and open them with your downloader, but the magnet links were slowly overtaking .torrent files in terms of popularity and usage. Before installing a downloader client, such as qBittorrent, you will need files to download .torrent files or access magnet links, the most known being The Pirate Bay. Others, such as Kickass torrents, exist, but usually do not have the base of users of The Pirate Bay. There are also private trackers, such as Demonid, that require an account to access. A quick search through this web will likely help you find what you are looking for, but look after before downloading how some files can be fake. Check the comments on the file download page as users will report fake or broken files. When you open .torrent, check the file you are downloading – if you are expecting a .rar file, and see a .exe, it is not the file you are looking for and is likely a virus. Cancel and delete the download immediately. We will cover more security tips in later sections. If the torrent looks legitimate, the download page will likely list two methods for downloading: .torrent or a magnet link. Considering that there are two download methods, you may be wondering what the difference is between the two. .torrent files can beessentially as treasure maps. These tiny files contain the locations for the various parts of files. Your download client will useFile to find the vain parts of whatever your download, download the parts, compile them in the file. Magnet files work a lot the same way, but they are a direct line connecting the downloader to each file instead of having to follow € œMapâ € as provided by a .orrent file. More, more, more differences are techniques that are about tracker servers and DHT procedures, but let's leave them alone for now. If your goal is simply downloading a file with a Bittorrent customer, both moms work very well. Magnet links take a little longer to start due to the establishment of direct connections, but also remove the step from downloading and open a .orrent file. Regardless of the whole of acquisition, since a download starts, its speeds will be dependent on the relationship of seed swarms to the hection, and its bandwidth. Once the download has completed, you will have access to the file, and you will start sowing the file. While sowing increases your download priority, it also increases your risk of being taken if you are seeing copyright-protected files. If you want a seed, you can completely close your download program, or you can delete the .Torrent, usually by clicking the right of the sowing file on your client and selecting a € œExClms Torrentâ €. Be sure to delete the data, however, or you will need to download the integer file again. Security and lawfulness of downloading torrents security as torrenting is the whole favorite for piracy, torrent have become utricaria of scanning and villain. Or at least rarchus, malware and annoying pop-up dwarfs for adult websites. When you are jumping to the pirates full of pirates, make sure you are well equipped to defend yourself. Protection against Vârus and Adware are highly recommended, and if you help to find good antivirus for your computer, our guides for windows 10 and mac will provide you with a defensive arsenal against potential dangers. If youThe software includes browser protection, make sure to activate it. Otherwise, find a suitable program to keep you safe while browsing. At the very least, allow any and all malware, phishing and malicious URL protection provided by your web browser. Above, we mention that you should check the download page so that the files you are downloading. If someone calls the file as false, incomplete or broken, do not download it. In addition, the reliable upload files in Pirate Bay will display a pink skull and crossed bones to mark their legitimacy. Favour these listings (but still perform caution). Finally, many sites hosting torrents run ads for adult websites, dating site, free or annoying games " special offers, almost all are inadequate to view at work, so allowing an adblocker is A smart one when searching on these websites (and you should not be torrenting at work anyway. It is likely that you will not only shoot you in hot water with your employer, as you will be occupying tons of bandwidth of the company accidentally, Thom Yorke " The modern boxes of tomorrow are for a year). Is that legal? Download via torrent is not inherently illegal. torrenting is simply an effective means for users to directly exchange the files. Often, completely legal files are delivered through torrents. An excellent example is the Linux districts, which are usually downloaded via torrent due to their large sizes. Sometimes filmmakers, musicians or game developers distribute their work for free through torrent files. The well-known game development studio, Blizzard, uses a modified BitTorrent client to provide great updates and game files through point-to-point sharing. Still, torrent files reputation of being used as a means of piracy and, to be sure, they are the main method of piracy. The point-to-point nature of them means you can get large files without having to deal with the upload or download of a server; therefore serotidne sod seÿAŠAadnemocer ed seÿAŠAadnemocerA airatarip me revolvne es ofAn etnemselpm©A oruges siam ofAŠAa ed ostruc o .edadreŷ an .saM .PSI ues olep otnemartsar o artnoc artureboc amugla jArecenrof e PI oŠAeredne ed edadvita aus ofArecrucsbio euq jšiautriv sadavirp seder jšreNPV omoc .odereges me edadvita aus retnan arap rasu edop AAcov euq sotnemidecorp snugla metsixE .sacis9Am 42 sanepa rahltrapmoc rop ofAšihm 9,1 ed altum amu me uotluser .levAn otla ed etnemralucitrap osac mu ,samoht v lotipaC .semerngA etnemlevircni satlum a .tnerretnI an sedadicocuf saus odnatrepa e edadvita aus odnaertsar .PSI ues o edsed rairav medop saicn9Augesnoc sA .raxiab arap etnemselpm© PSI ues olep ogep res edop adnia AAcov sam .saossep edo dalnwod o arap ecerefo AAcov euq oviuqra mu raemes oa .siop .raemes euq od ovnisefo sonem ajes dalnwod o euq es- atidercA .jodaetarip iof senorht f o emaC ed oidAšipe omitlA o sezev satnauq me sorem9Am rašAnal ed zapac ©A OBBH a lauq olep ovitom o AadP PSI ues oa edadvitva asse ofArataler seÿAŠAazinagro samugla e .sodaertsar res medop tnerroT .soviuqra so e EAmA ed sknil sO .odarutpac res edop ofAn AAcov euq acifngis ofAn soviuqra soa oterid osseca essE .levAnopsid etnemlicaf es- anrot
